Family Members

Over 70% of our patients bring in their family members to get adjusted. If you would like to have your children, spouse or significant other checked for subluxations, please check the box below. They can each receive a complimentary examination including computerized surface EMG and X-rays (if necessary) if scheduled within two weeks of you starting care. This exam is no cost to you and does not obligate them to receive future care. We have several convenient and affordable family plan payment options should family members decide to receive care. ☐ ***I would like my family members checked for subluxations in the next two weeks.***
